

Level 1 Introduction to Creative & Digital Technologies

Welcome to the Introduction to Digital & Creative Technologies course. We will be delighted to welcome you onto the course in September and helping you to take the next step to a great digital career, also providing you time to re-take an English or Math's qualification if required.

You will benefit greatly from doing a little study of your own ready for the start of term. Free online courses in any adobe software will help you to start understanding the software and how to use it.

You will need a PC or laptop at home to be able to complete the homework and assignments that are set throughout the year. Ideally this should be able to run Microsoft office 365 (supplied by the college).

We have added lots of information about the course on the college website:
<https://www.wsc.ac.uk/courses/digital-technologies>

First thing you will need to do is head over to <https://www.netacad.com> and register yourself.

Once you are registered you will need follow this link to enroll on the Digital Awareness Online course: https://www.netacad.com/courses/digital-awareness?courseLang=en-US&instance_id=10da428d-84d8-40d1-9aad-6416a8a42f6c

This is a 6-hour course that will give you a base level of knowledge ready for the start of the course.
